If you're only banned from the game server or TS3 then you need to post an unban request. If you cannot access the website due to being banned, you will need to send an email to [bannedclrpg\[at\]gmail.com](mailto:bannedclrpg@gmail.com)

Upon responding to the email, please follow the correct format including;

Name:

In Game Username:

Arma UID:

Reason For ban:

What Admin gave you the ban (If known):

Anything you want to add in your defense?:

The admins will then put your ban forward to the committee to review the reason you were banned, and consider your defense in return.
